Synthetic Facility Origination Record

MAT-003 - Meridian Facility - Original Disbursement

Matter ID	MAT-003
Document type	Historical facility record
Status	Synthetic test fixture - upload and review

Purpose

This synthetic document supports the historical Meridian Facility matter and tests cross-matter retrieval without changing the current recovery matter.

Origination

The facility was approved on 15 July 2022 and disbursed on 22 July 2022. Original facility amount: INR 48,000,000. Borrower: Meridian Components Pvt. Ltd.

Security package

The origination checklist records a proposed receivables charge and inventory charge. Registration evidence was marked for follow-up after disbursement.

Historical update

The facility was later transferred into the recovery workflow after payment default. This document should be treated as historical source material, not as evidence of current enforcement status.

Open item for review

Confirm whether the original registration evidence is the same security interest referenced in the current recovery matter.
